- Shore Power

Idle Free eAPU® Series	Weight Certification
Series 1000	630 lbs
Series 2000	630 lbs
Series 3000	622 lbs
Series 4000	622 lbs

Any vehicle that utilizes an auxiliary power or idle elimination technology unit in order to promote reduction of fuel use and emissions because of engine idling may be allowed up to an additional 550 lbs.

For current weight exemptions by state, visit: <https://afdc.energy.gov/fuels/laws/IR>

To be eligible for this exemption, the operator of the vehicle must be able to prove:

1. The weight of the APU (by written certificate)
2. By demonstration or certification, that the idle reduction technology is fully functional at all times.
3. Certification of the APU weight must be available to law enforcement officers if the vehicle is found in violation of applicable weight laws.
